PROJECTS

- Colour Blind** | *React, JavaScript, Firebase, Tailwind CSS* Jan 2024
- Developed a web-based game with React, TailwindCSS and JavaScript that challenges players to differentiate shades of colors
 - Implemented a leaderboard system with Firebase's Firestore Database to store usernames and high scores
- Keeper** | *React, HTML, CSS* Dec 2023
- Developed a note taking web app similar to Google Keep.
 - Notes can be added with a title and content and can be deleted by clicking the delete button on the note itself. Capable with react hooks.
- MySpotifyStats** | *React, HTML, CSS, TailwindCSS* Feb 2023
- A website to display top items from a Spotify account with React.
 - Used **Spotify's API** to fetch the account's top tracks, top artists, and what the account is playing at the moment.

EXPERIENCE

- Crew Member** June 2021 – August 2021
CoCo Fresh Tea and Juice Canada Aurora, ON
- Developed relationships with regular customers to promote top customer service standards
 - Collaborated with coworkers to implement new policies and procedures
 - Answered guest inquiries and resolve issues smoothly
- Summer Student Assembler** June 2023 – August 2023
Magna International Aurora, ON
- Participating in continuous improvement initiatives and complying with company guidelines for punctuality and environmental responsibility.
 - Rotating and operating various machines, hand assembling components, and notifying supervisors of any issues in the assembly process.
 - Assembled 125 units per shift, meeting or exceeding production quotas.
